Commonwealth Situation Report #30

Tuesday, October 21, 2003

1. Situation

Hurricane Isabel entered Virginia September 18 after making landfall along the North Carolina Outer Banks. The Commonwealth sustained winds near 100 mph and tropical storm winds for 29 hours. The hurricane produced storm surge of 5 to 8 feet along the coast and in the Chesapeake Bay with rainfall totals between 2 to 11 inches along its track. Damages due to wind, rain, and storm surge resulted in flooding, electrical outages, debris, transportation interruption, and damaged homes and businesses. At the height of the incident approximately 6,000 residents were housed in 134 shelters and curfews were imposed in many jurisdictions. Further damages occurred when a series of thunderstorms and tornados came through many of the designated areas in the southeast portion of Virginia on September 23. Governor Mark R. Warner declared a State of Emergency in the Commonwealth on September 15, 2003. Governor Warner requested, and a Major Presidential Disaster Declaration (FEMA-1491-DR-VA) was granted to Virginia on September 18, 2003. FEMA closed the incident period effective October 1, 2003. A total of 30 confirmed deaths to date. See Attachment 1 for disaster assistance designations.
